Rating Distribution:

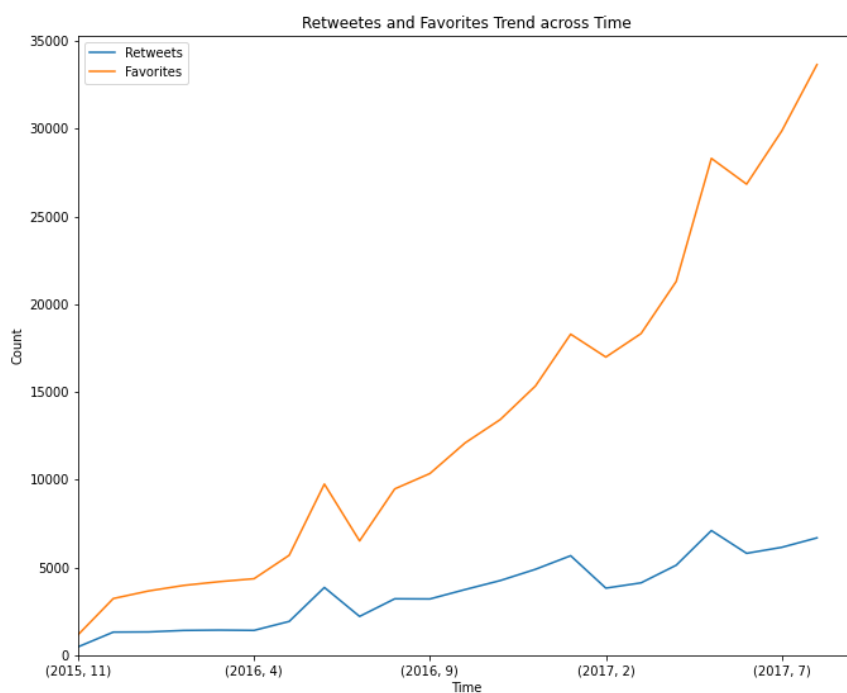

We can see that most the dogs are rated 12 and next 10. the highest rating got is 1776 and the second highest rating is 420.

The name of the dog with highest rating is Atticus

The name of the dog(sarcastically) with second highest rating is Snoop Dogg

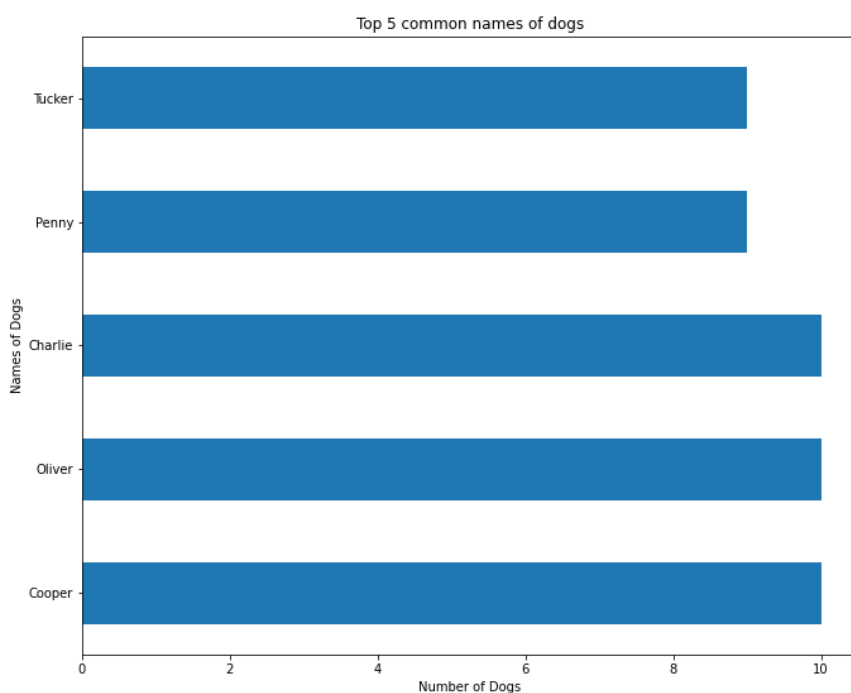

Retweet and Favourite Trend:

The favorite count trend shows higher increase in trend compared to retweet count trend.

Top 5 common Dog Names:

These are the top 5 common dog names. We can infer that 10 dogs are named as **Charlie** and **Oliver** and **Cooper**. There are 9 dogs name **Lucy** and **Tucker**.

Multiple Dog_stages:

Even after extracting the dog_stage from the tweet, Some of the tweets mention multiple dog stages(there might be many reasons for this). Therefore I replaced the multiple dogstages with **"multiple"** in the dog_stage column. and I found that there were 13 tweets which mention multiple dogstages and There are more than 1750+ tweets which do not mention any dog stage at all.

One reason for multiple dog_stages could be rating of multiple dogs in the same tweet.
